Haircut detail for Today:

Flight 42 at 1830.

Flight 46 at 2015

1. Effective tomorrow A/S Pellicone, J. L. and A/S Monroe, W. G. will take mathematics with Flight 46 in Room 328 (instead of their own Flight 38 in Room 327). The Flight leader of Flight 46 will carry them on his roster for that class only; the flight leader of Flight 38 will continue to carry them and note them as "Special Excuse". These men will march to Math class with Flight 38 and upon arrival, fall into Class with Flight 46; upon departure they will rejoin Flight 38. 4P

2. Effective immediately and permanently, unless circumstances reasonably prevent, flights will arrive at Class four minutes before class time. Upon arrival in each class during the day, the flight lieutenant must take a new roll call. See Training Memo # 34, Par 3 for re-check on procedure. 4P

3. Those 12 Jewish men who duly returned their names to the Training Department through their flight lieutenants and O.D. will be granted open post as follows: Sep 29: 1800 to 2200; Sep 30 0800 to 2200. No others are eligible. Next week there will be additional time on Friday and Saturday, times to be announced later. 4P

4. All students expecting incoming local calls must acquaint their callers with the number of the public phones in the Day Rooms. Effective at once, the Officer of the Day's detail will refuse to either call students to the phone or to give the public phone number to callers. In the case of long distance calls, discretion rest with the OD to grant use of the phone to the students. That applies to incoming long distance calls; outgoing calls will never be made over the official phone. In addition, "fishing expedition" calls by women for just about any available students will be responded to in a curt manner; these calls are not only unauthorized but distinctly undesirable. 4P

5. Mr. Hehir will arrange to have captains elected of all squadron and flight basketball teams and such names to be presented to the Commanding Officer as soon as possible. 1B

6. Mr. Lemaresquier is again asked to present a list of present members of the Honor Council to the Commanding Officer as soon as possible. 1B

- a. Class A Uniforms (with proper insignia) will henceforth be worn at Saturday parades and for all off post times.
- b. Class B Uniforms will not only be worn to classes but for all post activities.
- c. Fatigues will not be worn at drill or in the Mess Hall at any time unless such clothing is expressly announced or authorized for a particular detail or unit. 1B

8. Squadrons 10 and 11 are hereby informed that only the northwest door in the rear of the Campus School is to be used by Aviation Students when going to and from classes in that building. 2H

9. William F. Lemley is directed to report to Lt. Peterson at 0900 Wednesday. 4P

1. It has been reported that young boys visit our barracks, especially in the gymnasium, and no particular effort is made to discourage or definitely put an end to this condition. Furthermore, it seems that many of our aviation students use these boys to run errands for them in town and about the campus. All this, of course, is in direct violation of Detachment Memorandum #17 and Training Memorandum #20. Student Officers will be held responsible for enforcement of the above noted memoranda in spirit as well as in letter, and future offenses of this nature must be promptly reported. 1B

Flight 39 at 1830

1. All aviation students are specifically directed by the Commanding Officer to carry out instructions this headquarters pertaining to flights marching into all buildings, including the barracks. These flights are not to "fall out" until all men have completely and in a most military manner marched into the building proper as a unit. Further offenses along these lines will result in serious disciplinary action. 1B

2. Every aviation student and enlisted man of this detachment is reminded by the Commanding Officer that it is contrary to our interpretation of the Code of Honor for any man, under any conditions, to sign or initial any military document or item there on for anybody else but himself. 1B

3. Tonight Campus Nite and its schedule and privileges are authorized for all aviation students of this detachment except those who have tours to be walked off. This latter group of men will remain in their barracks and in the vicinity of their particular rooms and be in a position to report for a roll call of such men that may be called without prior notice.

For all other aviation students the schedule will be as follows:

1830 - 1930 Meeting wives and dates at the gate; freedom of the main side-walks of the campus, day room, gymnasium, cafeteria, Student Lounge, and Ingleside. (this means presence in all other places is unauthorized.)

1930 - 2100 Basketball game between Squadrons 8 and 9, College Gymnasium. Attendance mandatory for all who take advantage of Campus Nite privileges.

2100 - 2230 Dance in the Gymnasium (Music supplied by the College) During this period freedom of the main campus walks, the day room, the Cafeteria, the Student Lounge, and Ingleside is granted.

2230 - 2245 Time allowed for taking guests to the gate.

2245 Tatoo

2300 Taps

Any men not wishing the privileges of Campus Nite may remain in their quarters and observe "Call to Quarters" in the strictest sense of the order, not using the day rooms at all. 1B

4. There will be a brief but important Student Officers' meeting in the office of the Commanding Officer at 1230. 1B

(CONTINUED ON REVERSE SIDE)

1. Attention of all aviation students is directed to special letter by the Commanding Officer dated 18 October 1943 relative to Campus Night program today. 1B
2. Mr. Carlson, P. G. will contact the Commanding Officer as soon as possible. 1B
3. Attention aviation students is directed by the Commanding Officer to condition discovered by him last night at 1932: seven or eight men in latrines and in hallways at water fountains. These men had just arrived at the 1930 study hall period and certainly there was no logical excuse for their leaving the study rooms. As a matter of fact, aviation students are no more privileged to leave study rooms to go to the latrine, etc., than they are to leave regular academic class rooms for the same purpose. This only makes sense, and failure to comply with such logic indicates lack of proper application, especially since this very item was mentioned and discussed by the Commanding Officer at the group meeting Monday night. 1B
4. All copies of Training Memorandum No. 1 Recreational Swimming, 29 June 1943, will be removed from any books, Student Officer booklets, and files and destroyed at once. It will be replaced by a New Training Memorandum No. 1. of a different subject. Bound and indexed copies of all Training Memoranda for each room will be forthcoming in the near future. 4P

11. When the GI trash cans in the barracks are emptied into the campus incinerator men are directed to immediately set fire to the trash. This will prevent paper blowing around the campus and the necessity of selecting a police detail to pick it up. 4P

1. Huntoon, G. W. and Butcher, J. W. (if possible) will report to the Commanding Officer at 1250. 1B
2. Men interested in the Glee Club will report to the Commanding Officer at 1240. 1B
3. Attention aviation students is directed by the Commanding Officer to the following mess hall procedures. 1B
  - a. Men will form, march, and proceed through the chow line and to their tables and stand at their tables at perfect attention.
  - b. Commands at the table by the last man will be "remove coats", "take seats", "take off". Then conversation is permitted, provided it is held down to a whisper and restricted only between men sitting next door to each other or directly across the table from each other.
  - c. Acceptable etiquette will require men to keep their elbows off the table and not put their arms around the backs of chairs or turn their heads and carry on any conversation with men of adjacent tables.
  - d. The last man is the only one responsible for the table, but he and the first man to arrive at every table may replenish bowls and dishes, the food of which has been consumed.
  - e. A table will be recognized as ONE TABLE, no matter how many individual tables it consists of.
  - f. After everyone has finished, the following commands will be given: "rise", "coats on", "face", "march". All this, and then clearing the dining room, will be done at perfect attention.

This procedure must be so perfected that it will be exemplary; otherwise, complete silence in the mess hall will be directed as is the case in every other FTC unit.
4. Basketball: Squadron 9 versus Squadron 11 at Junior High School Gymnasium at 2100. A basketball formation will take place at 2040 for all aviation students without tours who want to attend. All others will carry out the regular normal Friday night schedule. No visitors permitted at the game. 1B
5. Squadron 8 is granted open post from 1830 to 0200 for their graduation party to-night. All members of the squadron, except those who have had tours assessed them by Detachment Board, are eligible for these privileges. Squadron 8 men remaining on the post may walk off any and all tours charged against them between 1900 and 0100. Men with tours leaving the campus are directed to attend the party, since this is the reason for their special permission. 1B
6. There are several retail stores in town authorized to give Army Exchange Service. Such stores may prove economical for men of this headquarters to patronize. 1B

Protestant Services - 0900

Catholic Services - 1100

Attendance will be compulsory for Squadron 12.

7. Higher headquarters have directed an analysis of Sick Call and Medical Excuses at this and other detachments. A report on the situation is also being requested. This action is not to be construed as any restriction on men needing medical care attending Sick Call; however, it is to be construed as a very determined effort to discover those men who attend Sick Call too often, either necessarily or unnecessarily. Consequently, all aviation students are urged to use Sick Call as it has been explained in the past, taking such advantage of it as is advisable and necessary, but not using this service for any other devious purposes. 1B

1. Attention all aviation students is directed by the Commanding Officer to their status as cadets of the 346th College Training Detachment rather than as students of MSTC. At the USO Formal Opening the other day, it was observed that as our aviation students signed the guest book they invariably noted their station as MSTC. This is entirely wrong. It is important as a matter of thinking as well as a matter of fact that all become conscious of our relationship directly with the 346th College Training Detachment rather than MSTC. 1B
2. Arrangements are being made for a trophy or similar award for the "top" basketball team each month, effective November 1. Details will be published later. 1B

5. Inspection order of the Halls and Latrines has been consistently in a highly unsatisfactory state. It is understood that supplies of brushes, brooms, mops, scouring powders, soaps, and dustcloths have been inadequate due to governmental purchasing problems. It is, however, expected that students will exercise resourcefulness in purchasing small items like scouring powder and dustcloths themselves in the meantime; regardless of obstacles, it is part of the military training that the job will be done. To implement this, the following rules go into effect:

1. No A/S will leave bottles, brooms and trash in the hall, but will keep it in his room until morning and then take it directly to the proper receptacles.
2. No A/S will deposit his dirty linens in the hall on Saturday mornings; instead it will be left in his room and picked up there by the designated person of the flight.
3. Mops will be rinsed and dried outside. Rooms mopped with a dirty mop invite demerits; no mop will clean unless it has itself been cleaned.
4. In addition to giving demerits to the orderly, any room adjacent to a particularly dirty part of the hall will also be given demerits.
5. The Hall-Latrine Orderly is given the authority to make Delinquency Reports in his own name for that day he is on duty. He will report any room orderly of rooms that sweep trash or bottles into the hall; he will report any other member of the detail who does not participate promptly and completely in cleaning the hall and latrine; he will report any person who enters the latrine during or after the latrine is being cleaned.
6. Insistence upon clean halls and latrines will go on. The Orderly is to be given demerits whenever uncleanliness is shown; it is to his self-interest to exercise the authority herein granted.

During the day, from 1930 to 2130, and after taps, the radios will not be played. 9. Reports of academic instructors concerning Squadron 12 and Flights 43 and 45 are most favorable. Reports like these are encouraging, are noted carefully in headquarters, and always prove to the advantage of such squadrons. On the other hand, reports regarding flights 40, 41, 42 and 46 are not altogether favorable, evidencing lack of application and improper attitude.

4P

10. Since Field Jackets are not authorized at Santa Ana, the Squadron 9 jackets will be picked up at this station. Ordinarily they would be cleaned by the Quartermaster but since we are stationed in such a detachment it will be necessary to collect 35¢ for the dry cleaning.

1. The condition of the latrines in all buildings has improved to a considerable extent. In certain respects they are far from satisfactory, namely:

Guard mount on Saturdays and Sundays will be hereafter held at 1500. This supersedes all other notices. Making any changes for convenience of aviation students concerned is a clear abuse of authority. 4P

1. Many men still have not conformed to the regulation concerning the wearing of black aviation cadet patches. This Saturday's inspection will be made with that fact in mind. Any man found in violation will be dealt with more severely than heretofore. 3M

2. It has been observed by this headquarters that men at reveille formations have worn the collars of the overcoats up or down as the individual deemed necessary. To prevent confusion on this point and to promote uniformity in this respect, all men will, at reveille, wear coat collars turned up and buttoned to the top. Other outer garments may be worn under the overcoat but in no way visible. 3M

3. It has come to the attention of this office that such cleaning materials as "Carbona" and "Energine" and the like are very satisfactory in the removal of greasy and dirty deposits on Government Issue Shoes. This information is passed on for the convenience of all concerned. 3M

4. A/S Davis, C. B. will report to Lt. Gay at 1300 this date. 5G

5. This headquarters is determined that the unfortunate and unnecessary trend of graduating squadrons to relax their discipline and military performance and behavior in the final weeks must stop. Such relaxation is the antithesis of the high proficiency that should obtain. To that end, the following policies are announced by the Commanding Officer: 1B

a. Open post activities for the final week will be denied without exception any man with one, two, or more tours and regardless of whether such tours have been assessed by accumulation of demerits or by determinations of the Detachment Board.

b. Student officers will be held more strictly accountable.

c. On those Saturdays on which any part of Class B has flying training in the afternoons, no tours will be walked off by any number of the squadron.

1. Attention of all aviation students is directed to the new rosters for Late Lights and for Authorized Activities During Call to quarters as provided for in Training Memoranda Nos. 9, and 22 but previously not enforced, as follows:

a. Authorized Activities During Call to Quarters. A separate form for each A/S will be submitted to a commissioned officer for his signature. Thereafter it will be sent to the Training Department for a check on academic and Military Deficiency, the names of deficient students then being stricken and disapproved. All cleared authorizations thereafter will be sent to the Group Plans & Training Officer for entry in the Activities During Call to Quarters. This is important and no activity is authorized unless the A/S has both the authorization in his possession and his name entered upon the roster. The roster will be kept on the O.D.'S Bulletin board at all times. No authorization will be approved unless it is completely and neatly made out in ink.

b. Late Lights Privileges. Authorization for late lights are granted by the Training Department. The A/S holding such authorization must without exception present it to the O.D. The OD must enter it neatly upon the roster at once. Until such is done the privilege is not valid. 4P

2. Each A/S will memorize paragraph 1 of Training Memorandum No. 1 at once. 4P

3. All members of Squadron 11 will report to the Supply Room today at 1845 sharp to receive Flying Jackets. 2H

1. An accurate count will be made by all Flight Lieutenants at the 1920 formation tonight of the regular weekend meals for the coming weekend plus a count for the Christmas dinner on Christmas afternoon, according to the following: 2H

- a. Number who care to be invited into civilian homes for dinner by the U.S.O.
- b. Number who wish to eat in Detachment Mess Hall at 1230. (There will be no supper that evening.)
- c. Number who have made other arrangements.

An accurate report on these meals must be made. Flight Lieutenants will pick up the mimeographed report forms in Lt. Hargrave's office immediately after the Student Officers' meeting.

2. It is imperative that all men mark the last four numbers of their serial number on the inside of all articles sent in to be dry cleaned. The cleaners will not be held responsible for the loss of any clothing that has not been marked with indelible pencil or stamp. 2H

3. There apparently is a wide-spread misconception concerning an A/S Non-commissioned Officers' authority to initiate a Delinquency Report. Attention of all is directed to paragraph 1b of Training Memorandum No. 17, dated 6 Nov 1943, which gives them such power. 4P

4. This headquarters notes a lack of insistence by Student Officers that they be granted the military courtesies due their rank, such as the salute. This is not a matter of personal pleasure for the student officer, but a matter of discipline which must be enforced. Not only must it be enforced, but subordinates rendering the salute must be corrected constantly for improper saluting and reporting in the proscribed military manner. 4P

5. Athletic equipment belonging to Howard E. Day was left in the Training Department. He will report to the Training Department to Sgt. Orlenko for it today at 1250. 4P

2. Tonight's basketball games are scheduled between 11 vs 12, and 13 vs 14. Participation in these games is urged upon all members of these squadrons interested. Competitive sport constitutes a highly desirable part of this training program. 1B
3. Mr. Clark, Mr. Martin, Mr. Hess, Mr. Lindsey, and Mr. Rogillio will report to the Commanding Officer in the gymnasium immediately after the 2020 formation. This meeting will take but a very few minutes. 1B

6. Aviation students are reminded of our stipulation that when walking around the post not in formation they will walk in a two-man front, and when there are more than two in the group they will form a column of two's. 1B

7. All aviation students are directed to comply with requirements of this headquarters that when they patronize laundries or dry cleaning establishments other than the two officially recognized by this headquarters, such aviation students will deliver and pick up their laundry or dry cleaning in town. Henceforth, deliveries from any other houses except the two with whom this detachment officially does business will be refused and aviation students receiving such packages may be subject to disciplinary action. The reasoning behind this is that deliveries are made in the office of the Officer of the Day and the Day Rooms, and even Detachment Headquarters, and there are no provisions available for handling of such matters. 1H
