The New Main Building and Gymnasium

Above are pictured two of the four new buildings which are being constructed this summer on the campus of the Moorhead State Teachers College. The main building shown is a \$400,000 administration, library, and classroom structure, and the gymnasium or physical education building shown to the right and rear, connected with the main building, will be a \$145,000 structure containing an 80 by 112 foot floor, a smaller supplementary gymnasium, a swimming pool, locker rooms, class and clinic rooms, etc.

The other new buildings not shown are a \$160,000 Training School and a heating plant. Together with Weld Hall (the auditorium, music, and physical science building) and the two dormitories for women, the physical plant, valued at more than a million and a quarter dollars, will adequately care for all educational needs for years to come.

MOORHEAD STATE TEACHERS COLLEGE

offers you

Unusual Opportunities for College Training Near at Hand

FOUR-YEAR COURSE

TWO-YEAR COURSE

Thorough Professional and Cultural Preparation for Elementary and
High School Teachers and Administrators

WHAT THE COLLEGE OFFERS YOU

Courses—

The bachelor's degree is given for the four-year course; the advanced diploma for the two-year course. Completion of either course entitles the student to a certificate to teach in the elementary, rural, junior high or senior high school. Students may major in Education, English, Physical Science, Social Science, Mathematics, Foreign Language, Music, Fine Arts, Industrial Arts, or Physical Education.

Student Teaching—

Graduates of Moorhead State Teachers College go out thoroughly prepared to teach, because in addition to regular college classes, they do from six weeks of teaching in the case of the one-year rural course to one year in the case of the four-year degree course, under the supervision of well-trained faculty members, in the Training School which enrolls two hundred thirty pupils of kindergarten to and including senior high school age. Rural affiliated schools give additional laboratory facilities for rural teachers.

Accrediting—

Moorhead Teachers College is a member of the American Association of Teachers Colleges, Class A (highest possible rating). Credits earned at the College are accepted by other colleges in so far as such credits meet established requirements. Graduates of the College are admitted to such graduate schools as Chicago, Iowa, and Columbia universities.

Tuition—

Tuition is free to those who declare their intention to teach. The registration fee of from \$10.50 to \$12.50 a term covers the cost of medical supervision, lyceum numbers, athletic contests, college newspaper, college year-book, and use of textbooks.

Living Accommodations—

The Dean of Men and the Dean of Women maintain a housing bureau which lists off-campus rooms for men and women. The two dormitories for women accommodate one hundred seventy-five girls; reservations for rooms in the dormitories should be made early this summer. Rooms and board either in the dormitories or off-campus may be obtained at very reasonable rates. Students should write to the Dean of Men or the Dean of Women for information.

Champions of the Interstate Conference, 1930

STUDENT LIFE

Athletics—

The Dragons will again be seen in action next fall, ready to attempt another brilliant campaign not only in the Interstate Conference, of which they were football champions five times in the seven years that that loop has functioned, but also to clash with St. Thomas; River Falls, Wisconsin, State Teachers College, champions of that state; Aberdeen, South Dakota, Northern Teachers College; and the North Dakota State Bison.

Champions of the Interstate Conference in both football and basketball, the colorful Dragons ripped and clawed their way to victory. They command the respect of all opponents in all fields of athletic competition.

Music—

Six musical organizations provide opportunities for all who are so inclined. The Chapel Choir was selected to give a joint program with the Carleton College Symphony band at the North Central States Music supervisors conference at Des Moines, Iowa, this spring. This group also sang at the University of Minnesota and gained the approbation of Victor Nilsson, Minneapolis critic, who said, "They simply sang bewitchingly."

The College Band of forty pieces has given several notable programs in Western Minnesota, and a year ago won the Hudson Bay trophy at the Winnipeg festival.

The Radio Girls and the Double Male Quartet, smaller singing groups for women and men respectively, are well known throughout the Northwest for their pleasing concerts over the air and in person at many conventions and other programs.

The Girls Glee Club is maintained for those girls who wish to gain experience in group singing. The Dragons, entertainment orchestra, provide music for social functions.

Dramatics and Forensics—

Eight plays were presented during the current year on the College stage. The culmination was reached with the presentation of "Giants in the Earth", played before a crowd which packed the spacious auditorium. Debate teams from the Teachers College will enter upon their eighth year of college and university competition next winter. Pittsburg university, North Dakota university, St. Thomas, Hamline, Jamestown, Mayville, River Falls, Aberdeen, Valley City, Mankato, and Winona are among the schools which have been met in debate.

Publications—

First in interest with the student body is the MiSTiC, weekly newspaper, which has been consistently rated "First Class" in the National Scholastic Press Association contests. The Praeceptor, published each year, is also "First Class" among annuals.

Organizations—

Three national fraternities, Alpha Psi Omega, national dramatic, Sigma Tau Delta, national English, and Kappa Delta Pi, national education, have chapters on the Teachers College campus. These three are but part of almost thirty organizations, formed to care for the interests of students in dramatics, athletics, forensics, geography, religion, art, country life, literature music, etc. The Y. M. C. A., the Y. W. C. A., and the Newman Club care for religious interests.

The Student Commission—

Student activities and organizations are supervised through the work of the Student Commission and its committees. This group consists of a student president, student secretary, a faculty adviser, and seven student commissioners, one each for athletics, forensics, religion, music, publicity, social groups, and educational clubs. Each commissioner heads his own committee of students and faculty advisers.

Social Life—

Besides the various organization social functions, all-College parties provide diversion and entertainment for students, alumni and faculty.

Lyceum and Arts Festival—

To bring the best talent available in the fields of music, dramatics, art, and literature is the function of these College activities. First on next year's program is the United States Army Band, which will appear in September.
