# The Bulletin of the State Teachers College

Series 30                  Number 1

April, 1934

Entered at the Postoffice  
at Moorhead, Minnesota as  
Second Class matter.

## Summer Session

1934

June 11 to  
July 20, 1934.

## THE PLAN OF THE 1934 SUMMER SESSION

The regular summer session at the Moorhead State Teachers College opens Monday, June 11 and closes on Friday, July 20. The complete schedule of courses for the six-weeks session is printed on the last page of this bulletin. For a description of these courses, the reader is referred to the College catalog, a copy of which will be sent on request.

During the session all students regularly enrolled carry eight quarter hours of work. Most of the courses offered are four hour courses. Each class meets four times a week for double periods. Physical Education or Applied Music may be taken in addition to the eight hour load. Students who have a B average may be granted the privilege of carrying ten hours if application is made to the scholarship committee. This privilege can not be granted to students for their first term in residence.

The wide range of subjects and the recreational opportunities will satisfy the needs and interests of all. The experienced teacher who desires to improve his status, a desirable goal particularly in the present economic situation, will find professional courses that will reveal present trends and demands in education. One primarily interested in cultural studies as an aid to a broader preparation will find many attractive offerings in music, art and literature.

The courses scheduled may be applied on the requirements of (1) the four-year degree curriculum; (2) the two-year standard diploma; or (3) required work for renewal of limited elementary certificates.

## MOORHEAD TEACHERS COLLEGE STANDARDS

Moorhead State Teachers College is maintained by the State of Minnesota for the training of teachers for the public schools of the state. The institution is a member of the American Association of Teachers Colleges, Class A. Credits earned at Moorhead are accepted by other colleges in so far as such credits meet established requirements.

The various curricula are organized to meet the specific requirements for teachers certificates in Minnesota. All certificates in Minnesota are issued through the State Department of Education and are based on the completion of definite courses of training. Each curriculum is arranged on the basis of (1) constants, (2) variables, and (3) electives.

The variables put the emphasis on one of the following fields:

Elementary - rural, primary, intermediate, upper grades.

High School - junior, senior.

In accordance with this plan, Minnesota certificates of different grades qualify the holders to teach in the elementary school, the junior high school and the senior high school. Credits earned at Moorhead Teachers College are generally accepted by other states as meeting their requirements for the endorsement or renewal of certificates.

The summer school is cared for by the regular staff. The management of dormitories, the health supervision of the students, and classroom instruction are in the hands of regular members of the college staff.

## APPLICATION FOR ROOM

Comstock and Wheeler Halls, Men's Dormitory

FILL OUT AND MAIL TO  
STATE TEACHERS COLLEGE  
MOORHEAD, MINNESOTA

Name of Applicant .....

Home Address .....

Name of Parent or Guardian .....

Address .....

Have you attended a Teachers College before? .....

Where? ..... When? ..... How long? .....

## LIVING ACCOMMODATIONS

A deposit of \$5.00 with the application of each individual is required to secure a reservation of a room. This amount will be applied on the rent for the first month. Make draft or money order payable to Moorhead State Teachers College.

In case the applicant does not wish to occupy the room the fee will be returned, provided the reservation is withdrawn ten days before the opening of the term.

There are on the campus living accommodations for both men and women. The two residence halls, Wheeler and Comstock, provide by far the best living conditions for women. They are located near to class activity and campus interests; in summer the large brick buildings are cool and pleasant; the dining room, the coolest spot in Moorhead, provides an attractive, comfortable place to take one's meals. The bathrooms with their new modern plumbing are supplied with hot water each day. The redecorating and refurnishing of the rooms and parlors make these homes comfortable and attractive.

For the summer session room rental will be as follows:

4th floor rooms, two to a room .....\$6.00 each for the six weeks period  
2nd and 3rd floor, two to a room .....\$7.50 each for the six weeks period  
1st floor rooms, two to a room .....\$9.00 each for the six weeks period  
Single rooms may be had for two dollars extra for the six weeks period.

The men's hall was made available for the men through the reconstruction of the old Exchange building. In addition to the supervisor,

twenty-six men make their home in the hall. Twin beds for each room is a feature of the bedroom furnishings. A large parlor in which is the usual furniture, including a piano, adds to the happiness and congeniality of the group. The small number of rooms available, the fact that the hall has been filled to capacity from the beginning, and the low rental charges, make it advisable for those desiring rooms for the summer session to make their application early. For the entire six-weeks summer term rental charges per person will be \$6.00 and \$7.50, depending upon whether side or corner room is selected.

It is expected that those who room in the men's residence hall will take their meals in the campus dining room in Comstock hall.

Board for women and men will be charged for at the following rates:  
3 meals per day, 7 days per week .....\$24.00 for the six weeks period  
3 meals per day, 5 days per week .....\$21.00 for the six weeks period

No reduction or refunds will be made for absences of less than one week.

Those living off-campus may have the privilege of dining in the Hall at the same rates as resident students

Any off-campus rooms must be secured from the approved list in the offices of the dean of women or the dean of men.

## ADMISSION AND CREDITS

The College reserves the right to accept or reject any applicant for admission on the basis of health, character, and fitness for teaching. These are regarded as prerequisites for admission.

Applicants holding a diploma from an accredited high school will be admitted to collegiate courses without examinations, provided they submit a transcript of their high school record. It is desirable to mail this transcript to the registrar prior to registration day, June 11. Credits will be withheld from students who do not present entrance credits.

Students who have attended other colleges must have their college transcripts sent to the registrar ten days prior to registration.

Holders of first grade certificates will be admitted during the summer session to first year college classes. Professional credits may thus be earned to meet renewal requirements.

Holders of limited elementary certificates based on work taken at a high school normal training department or a Minnesota Teachers College may take work toward the completion of their standard two-year diploma or toward a degree if their credits have been filed with the registrar.

## REGISTRATION AND FEES

Registration will begin Monday morning, June 11, at 9:00 o'clock and continue throughout the day. Class work will begin with the first period on Tuesday, June 12. Except by very special arrangement with the President there will be no registration after Tuesday. Students who do not complete registration on Monday will be charged the regular late fees in addition to the tuition.

The fee for the six-week session is \$13.50. This covers the loan of text-books as well as the incidental fees for lyceum, registration and other activities. Non-residents of Minnesota will be charged tuition of \$5.00 in addition to the regular \$13.50.

Private lessons in voice, piano, or violin will be \$12.00 for the six-week period. Ten lessons are given, one lesson a week during the first and last weeks and two lessons the other weeks. Pianos may be rented at the college for one or two hours a day.

The laboratory fee for Craftwork offered by Miss Williams is \$2.00 for the course.

Payments of all college accounts should be made in cash, money orders, or cashiers checks. Personal checks will be accepted for collection only. **ALL ACCOUNTS ARE PAYABLE IN ADVANCE.**

If you desire more complete and specific information about any of the courses or requirements, field trips, living accommodations, address inquiries to:

THE REGISTRAR,  
State Teachers College,  
Moorhead, Minnesota.

Ingleside, the College Social Room

### RECREATION AND ENTERTAINMENT

**TOURS:** Northern Minnesota - June 28 to July 1 inclusive. This tour includes Itasca State Park, Source of the Mississippi, Forest Rangers tower, boat ride on Lake Itasca, paper mill at Grand Rapids, iron mines and school at Hibbing, boat ride on Lake Superior and Duluth Harbor, steel mills or flax mills at Duluth, Skyline Drive and Lakeshore Drive. Total cost including transportation, lodging, boat rides, and breakfast at Itasca \$12.75. Other meals extra.

Lake of the Woods. Another trip to Warroad and by boat across Lake of the Woods to the Northwest Angle and Kenora is planned for the week end June 23 - 24. Lake of the Woods is considered equal to the Thousand Island District in scenic appeal.

World Fair - June 5 to June 11. An opportunity equal to the one given last summer is offered to those who were unable to go last year. The accommodations are the best and every travel need is provided for. The group will be back in time to register for summer school. If you are interested, please write for further information in regard to this trip. Address J. R. Schwendeman, Head of Geography department, State Teachers College, Moorhead, Minnesota.

**PHYSICAL EDUCATION.** The physical education activities in summer have three main objectives.

In the first place there are always some who are doing a considerable part of their work toward a degree or two-year diploma during the summer session. Such students find it necessary to complete part of the six terms of required work in this field during the summer session. Work for all grades and for rural schools will be offered. Swimming will be given for all from the non-swimmer to the expert class.

Another group of students desire special courses without credit. All

Swimming Pool in the New Physical Education Building

classes are open to them so long as the number of vacancies in the class permit.

The final, or perhaps the primary objective of the department in the summer is to aid students in getting acquainted. Many have felt that nothing finer is gained from a summer than the friendship they formed or renewed. The Physical Education department through its regular classes promotes recreation, picnics, parties, games and play hours.

Bring your sport clothing with you. Even though you are tired now and feel no desire for exercise, we assure you from long experience that after you have been here a few days you will wish for that old pair of tennis shoes, your racket and your old knickers or slacks. And then, if you want to swim, just for fun and to cool off on hot days, drop in and ask your doctor to take a look at you and tell you how much of that will be good for you. We do not have regular physical examinations in summer. Of course the school nurse will be here and will be glad to advise you, but if you are in doubt about the wisdom of swimming ask the family doctor. No! do not bring a swimming suit. We all wear the same kind and they are furnished here. No charge! Nothing in the department costs anything extra, once your college fees are paid.

### COACHING SCHOOL

Under the direction of A. J. Nemzek, Jr., director of athletics at the College, the Moorhead Coaching School will hold its fifth annual session August 27 to September 1, featuring this year the entire athletic staff of Princeton University, headed by H. O. (Fritz) Crisler, voted most outstanding coach in the United States in 1933. Besides Crisler and his assistants Wieman, Martineau, and Dickson, Principal George Olsen of Red Wing will teach a course in administration of athletics and physical education. All branches of athletics will be covered.

SCHEDULE OF THE SUMMER TERM 1934

--

JUNE 11 - JULY 20

	7:30—9:05	9:15—10:50	11:00—12:35
Mr. Archer	Educ. 386 Superv. through Visual Aids		Educ. 120, Psych. II
Mr. Ballard	Biol. 210, Nature Study	Biol. 310, Entomology	
Miss Bieri	Educ. 120, Psy. II		Educ. 430, Supervision
Mr. Bridges		Soc. 210, Intro.	Hist. 310, Contemporary
Miss Frick	Phys. Ed. 320, Anatomy		
Mr. Green	Hist. 112, Recent American	Hist. 321, Later European
