# **Praeceptors Will Be Distributed Soon To Students And Faculty**

#### To Be Dedicated To Founders Of Institution; Comstock, Livingston And Lord

The 1934 Praeceptors will probably be ready for distribution the latter part of next week. This year's annual is dedicated to the founders of the institution, S. G. Comstock, Dr. Frank Weld, and Dr. Livingston Lord. The art motif, cartoons, cover design, etc., are representative of the old-fashioned book, but the method used in printing the book is the most modern. With the idea of presenting the College at work, the 1934 Praeceptor will create an unusual effect, both in pictures and typography. Activity in its characteristic setting has

been stressed throughout the entire book. Even faculty members are no longer individually paneled, but will be shown in their offices in informal groups Effort has been made to show, by

pictures, the activities of the organizations. One will find emphasis on the idea of showing activities rather than showing faces, though each organization page lists all members. Each student who has his picture in the Album section of the year's annual has been given special attention in that each picture has been mounted in an individual frame. The activities, home towns, majors, and minors of the juniors and seniors are listed, while the sophomores and freshmen will have only the home towns and courses pursued listed.

Many novel innovations have been put to work in compiling the 1934 Praeceptor. These have been carried out to a marked degree, especially in the scenic, feature, and activity sections and the cover.

Dr. C. A. Duniway, professor of history at Carleton College, spoke in chapel May 16 on "World Relations and Peace.

Dr. Duniway said that the young people of today do not hold the world in their hands and they will not be able to make over a world that has been in the making for many thou-sand years. He insisted that nations should disavow war as an instrument of national policy.

He warned the student body never to be discouraged, to always be patient, to continue to work, and to as-

The Mu Gamma chapter of the Sigma Tau Delta, national honorary English fraternity, will be hosts of the Northwest Regional conference next year. The invitation was extended at the conference held at Northern State Teachers College, Aberdeen, S. D.,

The Memorial FleId of the Moorhead State Teachers College will be the scene of unusual activities tomorrow afternoon. The event will be the regional track meet for Region Six.

The meet this year will include entries from a large number of schools throughout the region and gives promise of being one of the closest and hottest contested meets ever to be staged on the local cinders. This opinion is based on the results of the district meets held last week in surrounding cities. A comparison of these results reveals that the various events in each district were run off in almost identical time.

The outstanding individual performance of the day is expected to be turned in by Sentry of Little Falls. This lad specializes in the century dash and the broad jump, doing the former in 10.2, and consistently clearing 21 feet in the latter.

The outstanding favorite to capture the team championship is Crosby-Ironton, with Herman and Detroit Lakes as close competitors. Herman may prove the most serious threat to Crosby-Ironton's reign, as it has the largest number of men qualified. Pelican Rapids may be classed as the "dark horse" of the meet because of the fact that it captured five first

Mr. Gilpin has hopes of making the meet an annual affair for the smaller schools and if possible to establish it as the annual Baby Dragon Relays.

# FRESHMEN AND GREEN CAPS

We who have spent this year as members of the Freshman Class of 1933-34 have heard many comments as to what we should do, what we should not do, and what we should be made to do. One of the most mentioned subjects in the madeto-do class is that of Freshmen being forced to wear the green cap. Well, why not? The writer, for one, is in favor of such a thing. The tradition of Freshmen wearing the green cap should be revived or resurrected from the grave where it was placed by "Old Man Depression."

The upper classmen say that we as Freshmen have been too cocky, if one may use the word, around the school this year. The wearing of the green cap would be a little discipline to start the Freshmen on the right track. If they still persisted in being cocky to an over-amount, it would be the duty of some upper classmen to set those Freshmen on the right road as to the principles and ideas of this college in order that they might lead a more fruitful and beneficial life while in college.

The caps could be worn from the opening of school until Homecoming, when a contest of some kind might be held between the Freshmen and Sophomores. If the Freshmen won the contest they would be through wearing the green caps, but Trojans, Eagles, and Spartans. if they lost they would continue wearing them until the close of the fall term. How does that sound to you, Freshmen, who will be Sophomores next year?

#### **COOPERATION IS NECESSARY**

There is no doubt that the one necessity for group success besides talent is cooperation; and the better the cooperation is, the higher the success will be.

We all know that there is sufficient talent in the Freshman class, and certainly in the whole college, to make the editing of the MiSTiC an easy matter. THINKING FOR YOURSELF

Following the crowd is not always the best policy; original and self thought never harms a person. For application - at class assemblies the students are far too willing to accept and pass any suggestion for which they have not the least intention of supporting or observing. The extreme on the other hand, of course, would be the person who would never agree and in this way hold up any class action, but careful consideration might prevent unpopular motions from being passed. Could it be put before the students in form of a plea that they, as individuals and as a class, support all actions which they pass by cooperating with the class officers? -M. V.

## College High School To Have National Society .

A charter of the National Athletic Scholarship Society of the Secondary Schools was granted to the College High School on April 28. The purpose of this organization is to foster the development of scholarship, sportsmanship, and leadership among the boy athletes of secondary schools.

The qualifications for membership into this society are: the member must have earned at least one letter in one of the four major sports or two letters in a minor sport, and he must have had an average for three consecutive semesters higher than the general average of the school. The average set by College High School is at least a B plus which is higher than the national average. Two students from College High, who are to be announced later, will become members of this organization this year.

The Alumni board met Saturday, May 5, at 2 p. m. in the Alumni room of MacLean Hall. All members were present except Ole Sande, the president. Superintendent Dahl of Glyndon, the vice president, presided at the meeting. Plans for landscaping the alumni property on 12th street and 3th avenue were approved. They voted to have the Alumni Dinner and Annual on June 4. The dinner will be held in Comstock Hall, with an alumni meeting after the dinner. Miss Rainey will be honored at this occa-
