HIST 272: History of Latin American II (4 cr.)	HIST 334

Paul Harris requested an additional course number be included in the list of changes: HIST 215: MN and the Upper Midwest, changed to 315.

Harris fielded questions and stated the changes proposed did not impact a major. Four of the courses are listed under Division C and the remaining six are Division F courses. The Liberal Studies Committee reviewed these courses during the semester conversion process. Harris stated these changes will bring the courses to the level at which they are currently being taught. Part of the rationale for the change is due to the MnSCU directive of 1/3 of a student's program be upper-level courses. Harris stated students will need history background to take these courses however, no prerequisites are required and none are being proposed. Junior or senior-level standing is also not required to be admitted to these classes.

Monteh stated course-level is significant to students when registering or planning their course selections. Pemble and Roy questioned if accepting these course-level changes, with no prerequisites and no junior or senior-level standing requirement, and allowing them to be offered for Liberal Studies credit, was to mainly satisfy MnSCU policy

Midgarden stated these changes are considered minor changes based on APAC's published definitions and if more discussion is needed, this item should be placed on a future agenda. The Committee decided to approve the changes as submitted.

CMS 233 & PHIL 220 courses were listed twice on the course requirement list submitted to APAC so one of each course was taken off the list.

Motion carried unanimously.

Krause moved. Ahles seconded to approve the Life Science (Teaching) Licensure Proposal.

Hart asked why there are no mathematics or physics courses included in this licensure. Shimabukuro stated a student would add this licensure to their major. This licensure is in compliance with the Board of Teaching.

(This item was discussed at the January 21, 1997 APAC meeting)

Bolton moved to accept the survey questions as prepared by the APAC GPA Subcommittee and the new deadline date. The Subcommittee is to survey the Deans and Department Chairs. Schmidt seconded to approve.
Motion carried unanimously.

12. Continuance of Summer Commencement

The Expanded Academic Affairs Council recommends to President Barden that summer commencement be discontinued and that candidates enrolled in sufficient and necessary courses during summer to complete their degree be allowed to commence in May.

The Student Senate supports this recommendation. There would be two commencement ceremonies if summer commencement was eliminated. Conteh stated if summer commencement is discontinued then MSU must be certain to offer the summer courses required by those students are only a few credits short of graduating. Dean Reed stated that if a summer course is cancelled due to low enrollments, students are notified early in order for them to select an alternate course. Midgarden stated summer course offerings are reviewed from a programmatic standpoint to serve students.

Pemble moved to support this recommendation. Hart seconded to approve
Motion carried unanimously.

Meeting adjourned at 5:15 p.m.
